

Major Worldviews Compared

"You will seek me and find me when you seek me with all your heart." — Jeremiah 29:13

Worldview	View of Ultimate Reality	View of Truth
Theism (Christianity)	A personal, infinite God exists and created the universe	Objective, discoverable through revelation and reason
Naturalism	Only the physical/material universe exists	Determined by empirical science alone
Pantheism	God and the universe are the same thing	Often mystical, experiential
Deism	God created the world but does not intervene	Discoverable through reason, not revelation
Postmodernism	Reality is largely shaped by language and culture	Relative to communities or individuals

Understanding these frameworks helps identify the assumptions behind objections to Christianity — many disagreements are really disagreements about worldview, not just isolated facts.
